# Who we are

**Oak Group was established in 2018 as a fund, corporate and private client services business, headquartered in Guernsey, with a heritage dating back to 1999.**

At Oak, we have a 'client-first' mentality. We provide exceptional, personalised client service, fostering lasting relationships built on trust, integrity and expertise.

Located in five jurisdictions with more than 250 employees, we strive to create an environment where our people are cared for, enabled, empowered, and supported to provide exceptional financial solutions.

With our collaborative approach, we strive to create long-term value for our clients, while maintaining the highest standards of conduct.

We prioritise the continuous growth and development of our people, recognising that their success is the foundation of our excellent service and our shared prosperity. ESG is something we take very seriously; it is at the centre of everything we do.

Oak is owned by Opera Limited, a new holding company backed by Pula, the family office of Stephen Lansdown, co-founder of Hargreaves Lansdown, along with like-minded shareholders such as Sealyham, the family office of Tom Scott.

Opera, which stands for O for Oak, P for Pula, and E-R-A for a new era in financial services, reflects the company's vision of transformation and excellence. With a focus on people, process, technology, and data, and a commitment to embracing innovation to meet the needs of an evolving global market, Opera aims to become a world-class portfolio of businesses renowned for exceptional client service and employee experience.

At the heart of this transformation is Project Overture, Opera's five-year strategic plan focused on three key areas: platform optimisation, organic growth, and inorganic growth. By 2029, Opera will have a significantly larger portfolio of businesses, expanded its geographic reach, and accelerated revenue and value growth, all while maintaining a client-first ethos.

# OAK8 | VALUES

## 1 | Focus on the client

We put clients at the heart of everything we do, paying attention to both the spoken and unspoken requirements. We start with understanding their needs to inform high-quality service delivery and solutions that are fit for purpose.

## 2 | Earn trust with integrity

We build lasting internal and external relationships through honesty, transparency, and accountability. By embracing diverse perspectives and communicating openly, we align our words and actions with the highest ethical standards, fostering trust and respect in everything we do.

## 3 | Support each other to thrive

We are resilient in the face of challenges, prioritising wellbeing and supporting each other to work smarter and create an environment that fosters both personal and professional growth.

## 4 | Think and act like an owner

We take full responsibility for the success and wellbeing of Oak. As stewards of the business, we act with integrity, make decisions for the long-term, treat resources as if they were our own, and uphold our regulatory duty and responsibility in every market we serve. We step up and solve problems proactively. Ownership means not only focusing on individual success but also ensuring the success of the entire team.

## 5 | Innovate and lead fearlessly

We foster a culture where people feel safe to try new things. We are brave and embrace bold ideas to break boundaries, solve problems, take smart risks, and drive improvement. We proactively tackle challenges to stay ahead of the curve, craft solutions, and own our results. We take time to learn from our experiences, always pushing to get the basics right yet remain unique.

## 6 | Fuel growth with passion and learning

We embody a growth mindset and entrepreneurial spirit. We prioritise our continuous learning and development of new ideas, directly benefiting our team and our clients. Our passion is contagious, inspiring others and celebrating wins.

## 7 | Think globally

We have a One Oak mindset, seamlessly collaborating across cultures and markets. Creating an inclusive environment where every voice is valued, we leverage broad perspectives and insights to innovate and achieve impactful results.

## 8 | Empower community

We elevate each other through shared learning, celebration, and unwavering support. By championing diverse voices, fostering equity, and creating an inclusive environment, we cultivate a culture of respect and belonging.

# How we can help

**Our Private Client services offer a solution designed to meet the needs of you and your family.**

We understand the personal involvement and hard work behind each of our clients' wealth and the desire they have for future generations to understand the origins of the legacy left for them and their continued benefit.

Oak assists clients around the world to structure their assets in a way that will help them grow their wealth now and preserve it for future generations. We guide our clients through the process of designing and implementing their bespoke structures, using trusts, foundations, companies and funds, in our offshore jurisdictions, to hold assets and investments for secure, efficient wealth and succession planning.

While some of our clients reside solely in one place, the majority of them are worldwide families with assets and relatives living in various countries. Oak has extensive experience administering trusts and private wealth structures with complex arrangements that include assets and beneficiaries spread across numerous jurisdictions as well as the legal, tax, and compliance concerns that occur when the laws of multiple countries may be in force.

Our team of experienced, qualified employees and our director led personalised service is focused on meeting those expectations and understanding the needs of our clients.

# Securing your family's future

**Diversifying assets offshore offers many benefits such as reduced jurisdictional risk, enhanced privacy, and international investment access.**

## Diversifying risk and increased stability

A broad spreading of assets across multiple jurisdictions has numerous advantages. Minimising exposure to economic and political uncertainties in a single country, increases stability, provides access to a broader variety of investment opportunities and enables wealth management strategies to become more flexible. A structure to hold these diverse assets may be the next step as any family will want to ensure that they have the right oversight and governance in place to keep track of their affairs. solutions for protecting the future interests of your business.

## Enhancing privacy and confidentiality

By transferring assets offshore, you can maintain privacy and confidentiality for your family. High profile families can often be targeted, and a structure may provide an element of extra protection.

## Tax efficiency

Properly advised structuring of your family wealth through an offshore jurisdiction can considerably reduce tax liabilities due to tax efficiencies available through those jurisdictions.

## Asset protection and succession planning

An offshore structure can help to protect assets for the future and also enables the orderly transfer of wealth to the next generation. By appointing an experienced professional Trustee to look after your global family assets you can take comfort that your international assets are being looked after in a stable well regulated jurisdiction.

## Accessing international investment opportunities

Investing in international markets enables individuals to expand their investment opportunities, these markets offer the potential for higher returns, exposure to emerging industries and the ability to capitalise on global economic development.

# What are the costs?

**We provide a specialised approach that helps clients accomplish their goals at a price that is economically viable for them.**

It is frequently believed that managing a trust would be too expensive. It is true that many of the major banks and other financial institutions charge significant setup costs for trusts. In addition, they also charge annual administration fees based on a percentage of the trust assets and basis points fees for cash investments made by the underlying trust.

Independent trust company fees are typically cheaper, making trusts accessible to even very small estates. Independent fiduciary businesses such as Oak, provide a more specialised approach that will help clients accomplish their goals at a price which is economically viable for them.

“Offshore trusts provide comprehensive asset protection, confidentiality, and tax advantages. By leveraging the expertise of our highly qualified team, we can navigate the legal framework with the utmost integrity whilst adhering to global regulations, ensuring our bespoke solutions are tailored to meet your needs.”

Scott McPherson - Director, Trust and Corporate

# Our jurisdictions

**We are jurisdictionally agnostic as a business, as a result our team will advise but not direct a client. The choice will come down to the individual circumstances, preferences and relevant tax advice.**

Oak has strategically positioned offices in jurisdictions which are seen as a gold standard in the provision of fiduciary services in the international markets.

Ultimately, the choice of jurisdiction will come down to individual circumstances, legal/tax requirements, jurisdictional benefits for certain activities, and personal preference. We recommend independent tax guidance to help our clients choose the right jurisdiction and structuring for them.

## Guernsey

Guernsey is a leading offshore financial centre operating with the highest levels of governance and regulation and is one of the world's oldest and most reputable offshore financial services centres. The Island's professionalism and regulation are unparalleled, backed by over 60 years of experience. Guernsey offers high-net-worth individuals a secure and stable environment in which to structure and preserve their wealth for future generations. Our Guernsey team has a unique focus on the South African market, although they are primarily geared toward those who wish to invest in the United Kingdom and Europe. Our senior management team has over 100 years of combined experience in UK property matters, a core asset class for the Group's high net worth private clients.

## Jersey

Jersey is a specialised centre that collaborates with some of the world's largest private equity managers who have more than 60 years of experience structuring, managing, and administering funds.

The core of the services provided by our family office are property and estate management for a number of large families. We have a robust network of relationships with all the leading banks, allowing us to locate the best financing and refinancing opportunities for our complex clients.

With our in-house expertise when it comes to the industry-leading Jersey Private Fund (JPF) product – professional investor structures with up to 50 investors – we offer quick setup timeframes, vehicle incorporation, and regulation with a lighter touch than the full Collective Investment Funds (CIF) product.

In addition, our team manages large Managed Trust Company structures for publicly traded UK companies and Private Trust Companies for ultra-wealthy individuals and we have extensive experience with AIM and Main market PLC listings, managing corporate governance for such entities to meet UK and Jersey substance requirements, and providing named directors to these boards.

We also have expertise with low carbon/net zero assets, with each Jersey director serving as a named director on the boards of companies with sustainability at their core.

## Isle of Man

The Isle of Man economy has been hailed as the forefront of modern regulation with an established fiduciary, banking, insurance, pension, online gambling and fintech industry. With a long-established legislation, based on common law principals with a strong tradition of upholding trusts, the legal system specifically affords clients the comfort that assets held in Trust will be protected for them and their families.

The Isle of Man shares the same VAT regime as the UK, meaning trading structures can operate within the UK and EU because they can be registered for VAT with the added benefit of no tax on the profits. Our team primarily provide trust and corporate solutions to wealthy individuals and families, many of whom have been clients for more than two decades. Businesses such as Derivco, Pokerstars and De Beers all having operations and/or family office connections with the island.

# Mauritius

Just a short hop from the African mainland, our Mauritius office operates as the Group's African hub. With its mixed economic system, combines private freedom with centralised economic planning and governmental regulation, it has become an international financial services centre of substance and repute and is an excellent and convenient base for trust operations for African based clients.

With a team comprising highly qualified backgrounds in administration, law, company secretarial, investments, regulation and compliance, our Mauritian office also serves as the Group's centre of excellence for accounting, risk and compliance. There are various incentives open for foreigners to purchase property in Mauritius, and the island is becoming increasingly popular as a physical base for African high net worth individuals. Whether it be a primary residence, or just a holiday home, there are a wealth of desirable properties for sale to foreigners, with a surprisingly low entry level offering people an enviable lifestyle in the heart of the Indian Ocean. Our team are well placed to assist potential new residents in their move to the island.

# The Bahamas

The Bahamas, an archipelago near Florida, consists of over 700 islands. The Bahamas has been providing bank and trust services to the international financial community since the 1930s. A preferred financial centre for the possession of intangible assets, and the ideal location for business ventures and for corporations involved in international trade practices as it presents tax neutral policy and maintains a well-regulated environment that fosters beneficial investment opportunities.

Amber Trust Ltd was acquired by Oak in March 2025. Integration will begin immediately, ensuring continuity and an enhanced service offering through access to Oak's resources and expertise. The Bahamas office offers services such as fiduciary asset structuring for a diverse range of international families, comprehensive company administration accounting services and establishment and administration of Foundations.
